

# MathCounts

MathCounts Club provides an opportunity for students who like to solve challenging math problems a chance to show off their talents. The organization was begun by engineers to broaden mathematics learning through competition. Cheboygan Middle School (CMS) MathCounts Club is sponsored by math teacher, Mr. Dan Lytle. They meet on Tuesday's after school in Room #808. Students in the club are required to pay a \$15 activity fee. They will work together to solve challenging problems and then compete among themselves for prizes and the opportunity to represent CMS at a regional conference in February. If you love math or enjoy a challenge, this is the club for you. See Mr. Lytle for more information.
