

Ski Club

Ski Club begins in early January when Nubs Nob opens for Night Skiing. The club is open to all CMS students in grades 5-8. Nubs Nob rental will be at the middle school in November to measure students who need to rent equipment. Both downhill skiers and snowboarders are welcome to attend. Ski club is a great way for young people to learn to ski. All students are required to take one lesson, no matter how well they ski. Beginners are required to take at least two lessons. Cost varies depending on the equipment, lift, and lesson each individual student needs. Check back for more information on costs, coming soon! Students who think they may want to go with ski club this year and who do not own their own equipment are encouraged to be measured in November.
